

Gathering 6 - Organizing the Small Groups

RENEWintl.org

This is one of the most time sensitive and slightly tedious tasks of the RENEW process.

It can only happen when most or all of the registrations are in.

Confirm that the leaders have a **faith-sharing resource** for each member.

Have the leaders **contact their groups** and give the members details for the first meeting.

Give each leader a list of the members who will participate in his or her group.

Create the groups and assign a leader to each.

Sort your participants based on the preferences they selected.

Contact participants and let them know that you've received their registrations and that their new group leader will contact them soon.
